(54) WIPING SHEET

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a wiping sheet provided with a deodorizing effect and excellent in feeling, dry strength and wetting strength at a low cost by including polyols and water-soluble deodorizing agent in a laminated object made by laminating plural sheets of wet pulp sheets, and embossing and forming a laminated sheet.

SOLUTION: In manufacturing a wiping sheet which has a deodorizing effect, is excellent in feeling, has dry strength and wetting strength and is used as a paper towel for care for adult and a disposable dustcloth, at first a laminated object is obtained by laminating wet pulp sheets. Next, polyols solution containing water-soluble deodorizing agent is applied to the laminated object obtained and the laminated object is aged for 0.5 hours or more, embossed to be integrated. Glycerin, polyethylene glycol and 1,3-butanediol are used for polyols. Essence extracted from green tea, persimmon and bamboo are used for a water-soluble deodorizing agent.
